

Welcome to Data War!

Physical Data War decks and expansion packs were only available at TwitchCon 2025, but we had such a blast making this game that we wanted to share it with everyone to spread the fun. Here's what's included, with instructions for how to print and play at home!

The original full deck, only 5,000 originally made.
- 2 Data War expansion pack**
Includes a new card type (Blockers) and an extra Billionaire.

Print instructions

ooo Welcome to Data War!

In **Data War**, you compete for a **One Way Ticket to Space** for egomaniacal, tantrum-prone little Billionaires. It plays like **Classic War**, but with the ability to **chain effects** from unique cards, resulting in unpredictable twists and explosive endings that play out differently every time!

 Who will you send to space in the **#BillionaireBlastOff**

Time
5-15 min

ooo Quick Launch Guide

- 1 Set the **WIN CARD** aside. Shuffle and deal equal piles to 2-4 players.
- 2 Like War, everyone places their **top card** face up into the play area at the same time (1, 2, 3 go!)
- 3 Follow instructions on special cards, chaining cards, and applying effects where instructed.
If an "Instant" card is played, perform it first.
- 4 The player with the highest total turn value wins all cards in the playing area, placing **Billionaire** and **Launch Stack** cards aside face up, and the rest at the bottom of their pile.
- 5 In case of a tie, go to WAR. Place 3 cards face down and 1 face up, go back to step 3.
Do NOT look at FACE DOWN cards won in WAR, just add them to the bottom of your pile.

○○○ Quick Launch Guide

- ⑥ You can use any collected Billionaire effects as instructed, but must return the card to the bottom of your deck afterward.
- ⑦ First player to collect 3 Launch Stacks + 1 Billionaire Wins! Trade them for the One Way Ticket to Space and BLAST OFF!

Things to note:

- All effects and values combine across the entire turn unless otherwise instructed.
- Hostile Takeover affects ALL OPPONENTS, even in 1v1.
- Data Grabs are pure disrupters. When played, everyone grabs as many cards in the play area as they can, including any face-up Launch Stacks or Billionaires.
- If you run out of cards, you're out. (But keep an eye out for Data Grabs that can put you back in the game.)
- If eliminated, players put up set-aside Billionaires and Launch Stacks, one per turn, to be collected by the next winner.

We think the best way to learn *Data War* is by playing! Use the included **Quick Launch Guide** to get started, or scan this QR code to go down the **Billionaire Blast Off** rabbit hole.
